Pressure relieving devices and fire safety

Important guidance and safety information for people using pressure relieving devices

Now you are benefitting from a pressure relieving device, follow these important tips to help keep yourself safe from fire

- Never smoke in bed or whilst using a pressure relieving device
- Never burn candles in the room where your bed or device is kept
- Never use matches or lighters near your bed or device
- Never use electric blankets in combination with your bed
- Never overload electrical sockets
- Never place hot items, such as hairdryers or heated hairstyling appliances, on your bed or device.
- Keep ignition sources away from your bed or device
- Ensure that electrical equipment is a safe distance away from your bed or device

- Ensure that fires and heaters are a safe distance away from your bed or device
- If you use barrier medications/creams that contain petroleum, oil or parrafin, ask your pharmacist or care provider to recommend suitable non-flammable alternatives
- If you use a mobility aid, keep it within reach of your bed or device
- Use fire retardant bedding
- Ensure essential electrical items are maintained, and switched off and unplugged at the mains when not in use
- ✓ We recommend each floor of your home has a working smoke alarm fitted - these should be tested weekly
- Make sure you have a free Home Safety Check by Greater Manchester Fire and Rescue Service
